

Emergency info points

Emergency info points in a crisis

The emergency info points go into operation when the control center cannot be reached by telephone. If only the emergency numbers 110 and 112 are unavailable, the emergency call can be made to **0461/19 222**. In the event of longer power cuts, it is possible to make an emergency call to the emergency info point.

At the emergency info points you can report an **emergency to the fire department, rescue service and the police**. In the event of an incident, they are manned at all times. There is no possibility of accommodation.

Emergency info points

- 1 Petri-Schule, Apenrader Straße 164

Contacts points

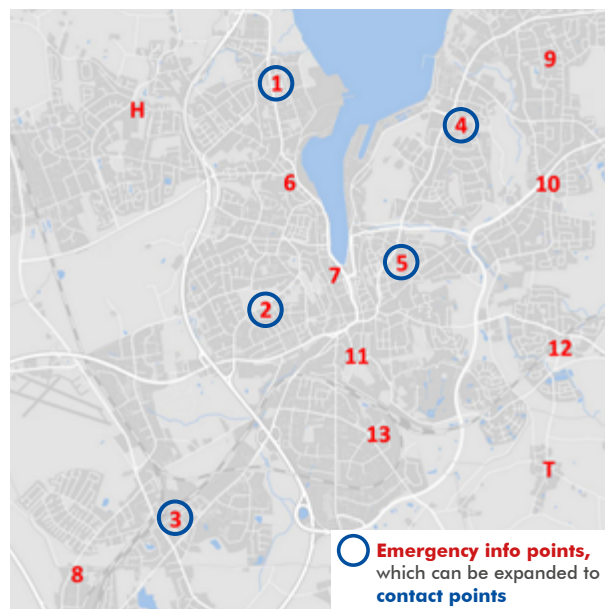

Contact points in a crisis

In the event of prolonged situations, some emergency info points will be expanded into contact points. Once the date of the start of operation of the contact points is fixed, this will be communicated at the emergency info points and via www.flensburg.de and the Nina warning app.

At the **contact points** you will receive information on the current situation.

There you have the opportunity:

- To warm up, if necessary
- To charge small electrical devices (smartphones, radios, flashlights,...)
- Be served hot drinks
- Offers of conversation
- Simple first aid

Disaster Management
of the City of Flensburg

FLENSBURG
Zwischen Himmel und Förde
Mellem himmel og fjord

When will a warning be issued?

Information in the event of the following occurrences:

For example:

- Power failure, blackout
- Extreme natural occurrences or disasters
- Extreme storms
- Pollutant releases (chemical accidents, major fires)
- Other unusual events

Photos: Adobe Stock, Stadt Flensburg

How will warnings be issued?

Warning devices

Depending on the situation, the following ways of warning will be used:

- Nina warning app

- Warning app Katwarn

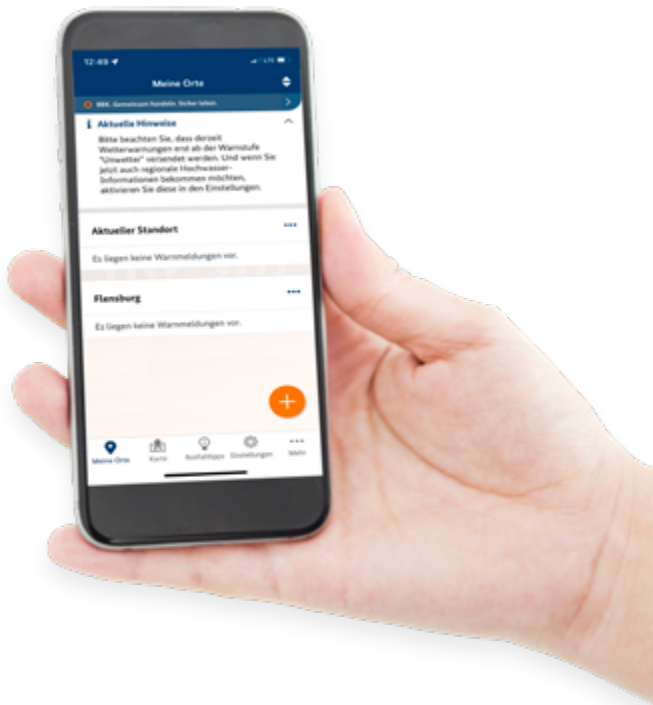

- Cell Broadcast

- Radio

For your own safety, please download the recommended **warning app NINA** onto your smartphone and help those who are unable to take this step on their own.

Further information

Current information
